To all,

We're forwarding the acrylonitrile package for IRIS/IO clearance. (I'm just hoping this email doesn't explode with all the files I'm attaching!) Here's what's attached:

**Tox Review**

(1) "clean" version

# Deliberative Process / Ex. 5

-- I saw that some of the tables didn't fare well during the compare procedure. Given that, I think we'll want to continue to use the "clean" version as the master.

**draft EPR charge**

(1) "clean" version  
(2) track changes version

**AR email**

(1) thanks to Jamie for drafting this. This was developed to go along with the package to Agency reviewers. I expect this could be used for a note to interagency reviewers as well.

**IASC fact sheet -- to follow tomorrow.**

**A few notes:**

# Deliberative Process / Ex. 5

# Deliberative Process / Ex. 5

that's all I can think of, except thanks to Ambuja for turning this around so quickly!

Sue
